

## Ubuntu Installation using Pen Drive

1. Create an iso image of the 'IT @ School Ubuntu DVD'.
2. Insert a Pen Drive in USB Port. (more than 4gb memory)
3. Open the 'Startup Disk Creator' window  
System --> Administration --> Startup Disk Creator
4. The window appears like;

5. Click on 'Other' button and select the Ubuntu iso image
- 6 Select the Pen Drive and click 'Format'.
7. If the Pen Drive is formatted and OK, then click the button 'Make Startup Disk'
8. After few minutes the disk creation completed message will appear.
9. Configure the System or Laptop without DVD Drive as Pen Drive as 1st boot device.
- 10 Insert the Pen Drive in USB Port and restart the system. We can install Ubuntu just as from the DVD.
